April 20, 2018

Dear Tree House Parents,

After a thorough interview process, the school board is very pleased to announce an offer has been extended and Summer Stough has accepted the position as Head of School for The Tree House Episcopal Montessori School. The search committee performed multiple rounds of interviews with very qualified candidates. Summer emerged clearly at the top of the candidate pool. Summer has extensive experience with school and parish administration, an established history in early childhood education, experience and passion for Christian formation and a long working history with the Episcopal Church. Her skill set will be a tremendous asset for the school.

Furthermore, Summer has successfully managed the challenges of the school's transition and we are optimistic about the direction and path of the school. Summer, our board, faculty and staff – with the support of our church – recognize that there is important work ahead. Just this week, we announced the construction of a building to house our growing school! Together we will continue to build the best early education program possible.

Faithfully,

Board of Directors
The Tree House Episcopal Montessori School
